**ITCAN'THAPPENTOMEISM**

I Didn't Think It Could  
Happen To Me!

7

---

---

---

---

---

---

---

This Was My Place

Don't Let My Past Be Your Child's Future

8

---

---

---

---

---

---

---

This is becoming less of a concern

9

---

---

---

---

---

---

---

This is becoming a norm, not an outlier

10

---

---

---

---

---

---

---

### The Origin of Addiction

Having interviewed more than 10,000  
addicts, offenders, ex-offenders,  
people in Recovery, People  
“recovered” and Family Members

I’ve found 90% of addiction is  
grounded in 3 substances prior to the  
age of 18 – ALL 3

Gateway to Heroin and Fentanyl/Synthetics

- 137 Addicts were interviewed over 10 months in Camden
- Not one person was FROM Camden, 126 were Women
- 121 of them abused Opioid medication prior to becoming addicted to heroin and fentanyl/synthetics
- 88% (National accepted percentage is 80%)
- Opioids have their place, their importance, but since 1995, and throughout the later years, these drugs were mis-marketed, overprescribed and abused

15

---

---

---

---

---

---

---

---

### The Tri-Fecta Gateway

- Tobacco / Nicotine
  - Alcohol at a young age
  - Marijuana consumption as a teen
- 
- ONE-HALF of the Tobacco consumed in America is consumed by people with substance use disorder or mental illness
  - EIGHTY % of the Alcohol consumed in America is consumed by 20% of the drinkers
  - Marijuana is 600% stronger than it was just five years ago, and the average method of initiation for youth is smoking concentrates through pipes (BHO) and vapes or e-cigarettes

16

---

---

---

---

---

---

---

### ***ADDICTION***

**Drug Addiction Is Not About Drugs, It is About BRAINS!!!**

17

---

---

---

---

---

---

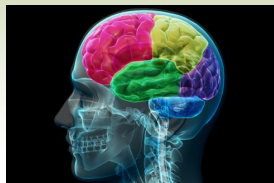

---

### ***Tri-Fecta Gateway***

**Alcohol – Depressant**

**Nicotine – Stimulant**

**THC – Hallucinogen**

18

---

---

---

---

---

---

---

**DID YOU KNOW ...**

90% of substance abusers started in their TEENS

### Where are we 11 years later?

#### OGDEN MEMO of 2009

Guidance on how to enforce the  
Controlled Substances Act in states  
where “medical marijuana” had been  
legalized

22

---

---

---

---

---

---

---

### Where are we 8 years later?

#### COLE MEMO of 2013

Told L.E. to focus on:

- Prevent Distribution of cannabis to minors
- Prevent cannabis revenue from funding criminal enterprises, gangs or cartels,
- Prevent cannabis from moving out of states where it is legal

23

---

---

---

---

---

---

---

### Where are we?

- 18 States (and D.C. are fully recreational
- 18 additional states are fully medicinal marijuana
- ZERO caps in ANY state on potency and NOT ONE STATE has identical testing requirements for mold or other contaminants
- Adolescent use at RECORD HIGHS
- Potency at RECORD HIGHS
- Drugged driving at record levels with NO universal means of testing and prosecution
- SYSTEMIC Contamination in hotels, rental cars and many tourist locations

24

---

---

---

---

---

---

---

### Where are we GOING?

- 68% of voters support federal legalization, and it WILL PASS
- Jeff Bezos and Amazon fully involved in legalization discussion, the drafting of legislation and controlling distribution
- Monsanto controlling 90% of the raw materials
- Cannabis-induced psychosis, especially among KIDS
- Cannabis hyperemesis syndrome
- Explosion in earlier onset of addiction and mental health problems, especially among kids
- Continued explosion of suicide, adolescent suicide
- A complete destruction of “recovery” drug treatment and sober living treating marijuana NOTHING like alcohol but embracing it as an “alternative to drugs”

25

---

---

---

---

---

---

---

### Vapes DROVE the explosion

E-Cigarettes and Vapes exploded throughout the country, and it wasn't to help cigarette smokers quit, THAT WAS THE LIE, it was to build the infrastructure to support the preferred delivery system for THC and all illicit drugs

26

---

---

---

---

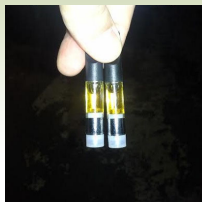

---

---

---

Additional Dangers we're not discussing

E-Cigarette use among adolescents is exploding and they are being used as drug delivery systems

27

---

---

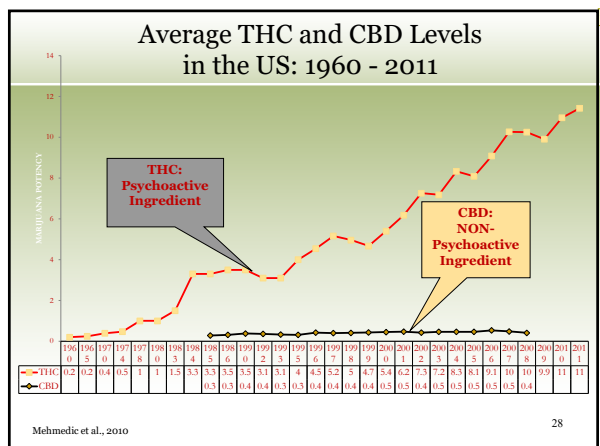

---

---

---

---

---

28

---

---

---

---

---

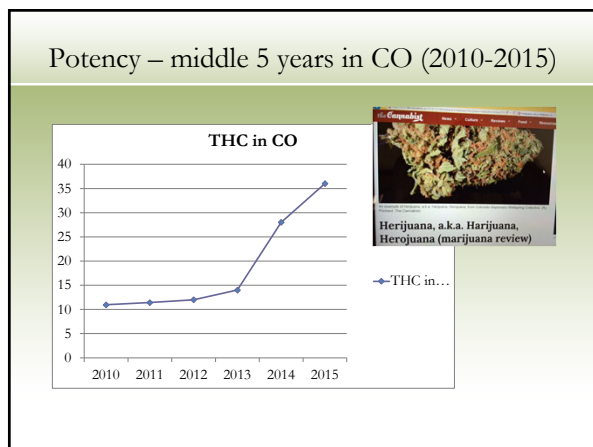

---

---

32

---

---

---

---

---

---

---

---

33

---

---

---

---

---

---

---

---

Additional Dangers we're not discussing

High Potent THC Liquid which also contains numerous chemicals, that when “Atomized”, become toxic for the body

34

---

---

---

---

---

---

---

---

Butane or Propane Hash Oil

The genetically-modified plant is itself modified again into a more pure, more potent drug

35

---

---

---

---

---

---

---

---

Butane or Propane Hash Oil

36

---

---

---

---

---

---

---

---

37

38

39

THCa Crystalline – 100% PURE

40

---

---

---

---

---

---

---

---

WIDESPREAD Edibles and Candies, waxes and DABS

41

---

---

---

---

---

---

---

---

**The “CBD” industry**

The CBD industry was the distraction,  
the bait-and-switch cover for the  
tobacco industry, controlling the  
marijuana industry, to create the NEW  
THC market thanks to the 2018 Farm  
Bill legalizing the HEMP Plant

42

---

---

---

---

---

---

---

---

### Delta 8 and the Ruse of HEMP

- Delta-8 THC is quasi-legal, meaning it's identified as a schedule 1 drug, fully illegal under Federal Law, yet, ironically, under Federal Law – through the 2018 FARM BILL, signed by President Trump – has been made fully legal without even addressing it specifically.
- There is really ZERO regulation of Delta-8 THC and it's basically made Getting High off "Marijuana" fully legal and available in ALL 50 STATES!!!
- Delta-8 is being genetically modified, industrialized and now commercialized to be sold literally anywhere and everywhere and it is more easily obtained by adolescents than alcohol, nicotine and certainly delta-9 marijuana THC

43

---

---

---

---

---

---

---

---

### Delta 10 and the Ruse of HEMP

- Delta-10 THC is quasi-legal AS WELL, and it is a newly isolated and extracted molecule. Through the 2018 FARM BILL, signed by President Trump – derived from hemp, it has also been made fully legal without anyone understanding it's hallucinogenic affects, especially on youth and the developing brain.
- There is really ZERO regulation of Delta-10 THC and there is virtually ZERO understanding of any drug-drug interactions
- Delta-10 is being genetically modified, industrialized and now commercialized to be sold literally anywhere and everywhere and our state and federal legislators are literally ASLEEP AT THE WHEEL – no one is even addressing this emerging crisis for KIDS!

44

---

---

---

---

---

---

---

---
