

# The Duty of Care for “Medical” Marijuana: Keeping THC Out of the Hands of Our Youth

**JOHNNY'S**  
AMBASSADORS

## Program Description

Laura has given student body assemblies at 1000+ schools and has seen firsthand the impacts of marijuana legalization and the proliferation of hemp-derived intoxicating products. SROs and teachers have a passion for students and a desire to help them succeed. We will put the materials in your hands to take back to your school to educate students in classrooms and conversations. This class designed for SRO conferences and teacher in-service will help you provide a safer learning environment at your school, provide resources to school staff members, foster positive relationships with students, and develop strategies to resolve problems to help students reach their full potential.

## Speaker Bio

For 30 years, Laura Stack was best known in the business world as “The Productivity Pro.” Her career as a keynote speaker, bestselling author of eight books, and corporate spokesperson came to a screeching halt after her son’s death. Her platform now brings prevention education to drug prevention conferences, community groups, and schools to stop youth marijuana use. Johnny’s story has been told in People Magazine, the New York Times, the Wall Street Journal, PBS, and Dr. Phil. Laura is a powerful speaker who brings Johnny’s personal warning and solid research together in her book, *The Dangerous Truth About Today’s Marijuana: Johnny Stack’s Life and Death Story*. Described as a force of nature with unstoppable drive and unwavering purpose, Laura is determined to get teens to #StopDabbing.

## *for Safety/ School Resource Officers*

## Objectives

- Discover how easy it is for teens to access THC products.
- Learn the latest different forms available in dispensaries and online.
- See the latest ways teens use to disguise and hide their product
- Find out how high school seniors become the school drug dealers with their “medical” marijuana card
- Learn how a former Sheriff of Douglas County, CO, investigates MIPs in Colorado
- Outline what to do when called to an underage party where marijuana is present
- Discover how to put guardrails in place to protect 18-to-20 year olds from accessing THC
- See Colorado non-natural death toxicology data by age group and substance
- Outline the impacts of marijuana legalization in Colorado
- Recognize drug-impaired driving
